Trio Injured As Car Skids, Hits Laundry

Wellsville Woman's Auto Plunges From Grade On 'Hill Rd.'

Three Wellsville women were injured today when their auto skidded out of control on a snow-covered grade on the east end of the Pennsylvania Ave. "Hill Rd.," crashed through a guard-rail, plunged over an embankment and smashed through the wall of a concrete block laundry building on State St.

Mrs. Maxine Rice, 48, of 2103 Chester Ave. was in "fair" condition at City Hospital with a back injury.

Two other passengers were treated and released. They were identified as:

Mrs. Mildred Keener, 53, of 1779 Arthur Ave., a back injury, and Mrs. Elsie Williams, 48, of 818 Aten Ave., Wellsville, a bump on the head.

Mrs. Maude Caroline Fraser, 41, of 2003 Danbury Ave., the driver, was examined and released, as was Mrs. Mary Yanko, 51, of 324 2nd St., another passenger.

Police said the 1959 four-door hardtop driven by Mrs. Fraser smashed through the wall of a concrete block building owned by the Belek St. Civic League and occupied by the Econ-O-Wash Laundry.

There was no estimate of damage to the building or to the laundry facilities. Police said the laundry is owned by Mrs. Joseph Clement of Clement Way.

The initial survey showed the crash damaged two automatic washers and loosened a gas line leading into the laundry.

Patrolman Orin C. Smith, who investigated, said the eastbound auto plunged off Pennsylvania Ave. about 25 feet west of its

Rain Follows Flurries

Snowstorm Hits With 2-Inch Fall

An unscheduled snowstorm moved into the Ohio Valley this morning, depositing between 2 and 2½ inches before it tapered to flurries then cleared shortly before noon.

The Ohio weatherman had forecast only flurries, but another forecast was issued later, confirming the light snow then flurries.

Charles Boughner, lockmaster, reported about 2½ inches at the Montgomery Island Dam at Ohio View, but the city got about 2 inches. He said there was rain mixed with the occasional flurries that followed the main storm but freezing conditions did not develop, with the temperature about 36 degrees.

The snow started falling heavily at 6:30 a. m. and continued intermittently about three hours. Tri-State district school officials watched warily, awaiting more definite word on the possible accumulation. All classes were in session this morning with a few reporting minor delays in bus travel.

The early - morning fall brought out state, county and city trucks to spread cinders and salt.

The Leetonia garage of the State Highway Department said all 18 trucks were sent to the state routes starting about 6:30.

Area roads were reported "very slippery" this morning by the Ohio Highway Patrol at Lisbon.

Officers said there were a number of traffic tie-ups at such sites as Cannons Mill Hill, Williamsport Hill and Rogers Hill, however, traffic was moving later this morning at these locations, officers said.

Shortly after reporting for work at 7 this morning, East Liverpool street department crews mopped trucks and began spreading ashes and salt

on grades and at intersections. The department said streets did not become slippery until shortly before 7, but the accumulation of snow was building rapidly.

As early as 7:30, major arteries such as the St. Clair Ave. and Lisbon St. grades had been salted.

Wellsville street crews started spreading salt and cinders at 6:45 and still were working on grades and hills shortly before noon.

The snowstorm swept across seven Midwest states, with amounts ranging up to half a foot in some areas, before moving into the Ohio Valley and interior sections of the Northeast.

The snow belt covered areas in Iowa, Missouri, Illinois, Indiana, Michigan, Wisconsin and Ohio.

Driving conditions were hazardous in many areas. At least four persons were killed in traffic accidents on ice - slicked highways in northern Illinois.

Three motorists paid fines and costs totaling \$110.50 today in Municipal Court on charges they ignored 32 old parking tickets.

Acting Judge Robert A. Kapp, following the court's standard formula, assessed these penalties: Paul Mosser of W. Center Ln., \$33.50; Joseph E. Landis, 631 Minerva St., \$35.50, and Ruth Schwartz, 628 Jackson St., \$41.50.

In each instance, the defendants were assessed \$10 and \$7.50 costs on the first ticket and \$2 for each additional citation. All the charges were filed by "Meter Maid" Pauline Nelson.

Mosser was accused specifically of failure to settle a ticket issued for overtime parking June 20 on St. Clair Ave. Attached to the affidavit were eight more citations which he allegedly ignored.

Mosser told the court he believes he paid for two of the tickets. But he was unable to produce a receipt, saying he had left it at home. The judge told Mosser if he produces receipts for any of the tickets, his penalty will be reduced accordingly.

Landis was accused specifically of parking overtime Sept. 28 on E. 5th St. Nine more tickets were attached to the affidavit.

The woman was charged with a violation April 5 on W. 7th St. Attached to the affidavit were 12 more citations which she allegedly ignored.

Today's action was a continuance of a year-end cleanup of old tickets which began more than a month ago.

Swiss Reject Reds' Charge On Security

Says Complaints In Defected Russian's Case 'Unfounded'

GENEVA (AP) — Switzerland has sharply rejected the Soviet Union's complaints about Swiss security in the case of a Russian disarmament delegate's defection to the United States.

Rene Helg, president of the Geneva cantonal (state) government, Wednesday called the Russian charges "unfounded, unjust and unfriendly." He said the Russians refused to cooperate with Swiss authorities and even hindered the Swiss police investigation.

Semyon K. Tsarapkin, chief Soviet delegate to the international disarmament conference, accused Western agents of "provocative activity" in the defection of Yuri I. Nossenko, 36.

He has been identified by U.S. officials as an officer of the Soviet KGB security agency.

In a statement to newsmen, Tsarapkin accused Switzerland of failing to provide adequate security for delegates and demanded the Swiss get Nossenko back.

Summoning Soviet Ambassador Alexander Lochitkov to his office in Bern, Foreign Minister Friedrich Whalen handed the Soviets a stiff protest against Tsarapkin's remarks.

At a news conference in Geneva, Helg said Tsarapkin waited 29 hours before informing Swiss police of Nossenko's disappearance.

Helg declared the Russians refused to give Swiss police a photograph of Nossenko, his birth date or particulars of his background, and refused to allow inspection of his belongings or permit questioning of other members of the Soviet delegation.

Fire Hits Bus Firm

LANCASTER, Ohio (AP) — Fire caused \$22,500 damage to the Lancaster Transit Co. here Wednesday night when a short-circuit in electrical wiring on a bus set fire to the company's barn. One bus was destroyed and five others damaged with a loss to vehicles of \$9,000.

The district was created in the recent Pennsylvania reapportionment legislation, and will give Beaver its first senator for the county alone. He announced previously.

A Statement

We have received a number of protests over use of the ad.

Negro leaders in East Liverpool have been working long and hard to keep matters on an even keel in this community, and have been succeeding in admirable fashion. We have absolutely no wish to endanger the fine relationship that has existed with them or to make their task more difficult.

We ask their understanding and that of all our readers. For its part, The Review does not feel the message in this ad is pertinent to our times.

British Reported In Complete Accord With U.S. On Viet

WASHINGTON (AP) — President Johnson and British Prime Minister Sir Alec Douglas-Home met today to discuss disarmament problems and such ticklish economic questions as long-term credits to Communist countries.

White House sources reported that the talks between the two leaders Wednesday went extremely well.

The prime minister and Foreign Secretary Richard A. Butler told Johnson and Secretary of State Dean Rusk that the British government wholeheartedly supports the U.S. position on South Viet Nam, British spokesmen reported.

Sources said Johnson and Douglas-Home established good rapport in their first formal meeting despite differences on such delicate problems as trade with Communist countries in general, and especially U.S. resentment over the British sale of \$11 million worth of buses to Cuba.

This topic, informants said, was disposed of quickly when the prime minister did not conceal his annoyance over American criticism of the sale.

He was reported as having told Johnson:

—Britain, while barring the export of strategic goods to Communist countries, intends to carry out peaceful trade with them.

—The British are at a loss to understand the difference between the United States feeding Communists with American wheat, but objecting to Cubans being transported on British buses; and

—In general, that Britain's economy depends on foreign trade, while that of the United States does not.

McCune Files Petition For Senatorial Post

BEAVER — Sam M. McCune of Rochester Township today filed his petition for Republican nomination for senator in the new 47th Senatorial District.

Former commissioner and a Veteran Beaver County GOP leader, he filed with the State Election Board in Harrisburg for the primary April 28 in his first bid for a state office.

The district was created in the recent Pennsylvania reapportionment legislation, and will give Beaver its first senator for the county alone. He announced previously.

Real-Life Drama

TV Actor Laughs Off Kidnap And Extortion Effort

NORTH HOLLYWOOD, Calif. (AP) — Veteran actor Leon Ames, released after being held at gunpoint for four hours in a \$50,000 extortion attempt, laughed it off.

"I've played a lot of these parts before," he said.

Ames, who also is a prominent auto dealer, his wife, Christine and two others were involved in the real-life drama Wednesday that ended with the capture of a young mechanic who had fled with Mrs. Ames as a hostage.

She was released unharmed after police, directed from a helicopter overhead, surrounded the car.

Ames, 61, plays in the "Mr. Ed" television series and was a star in the series, "Life With Father," as well as many movies.

He said the action, reminiscent of a gangster movie, started when "I heard the doorbell ring. It was just after 8 a.m. There was a young fellow standing there with a gun. He said, 'Back up and shut up.'

"He said, 'This is a holdup and a kidnap. Don't try anything funny.'

"I couldn't believe it. He said

one false move and my wife would be dead.

"He asked for \$50,000 within two hours. I pretended to be sick, thinking maybe I could get the gun, but then I realized that was silly."

When Ames told the man he did not have \$50,000, the suspect told him to contact his partner, Ralph Williams, and tell him to come to the Ames' home for a business conference.

When Williams arrived, the gunman held him, Ames and his wife, and a house guest, Herbert F. Baumgartner, 50, at gunpoint until nearly 10 a.m. when the Bank of America branch opened.

The gunman ordered Williams to get the \$50,000 from the bank in small denominations.

"Bring it here by noon or I'll kill all three of these people," he warned.

They sat in the Ames home, drinking coffee under the watchful eye of the young man with the cocked pistol, until Williams returned with the money about 12:15.

He handed over the money.

Talks Seek Peace Force For Island

Greek And Turkish Cypriots Clash In Five-Hour Battle

NICOSIA, Cyprus (AP) — Heavy fighting broke a cease-fire in the southern port of Limassol at dawn today and Greek Cypriots swung make-shift armor into a five-hour battle against the Turkish quarter. Then the British arranged another truce.

The shooting came as American and British diplomats pursued talks in Nicosia with the aim of landing an international peace force on this troubled island.

An Associated Press correspondent said he saw five Turkish dead in a Turkish Cypriot area of Limassol overrun in the battle. He said the total could be determined only after officials gained access to the surrounded quarter.

Greek Cypriots said they lost one dead and several wounded.

A British military source said the Greek Cypriots used armored bulldozers, an old tank and homemade armored cars. The original cease-fire was established Wednesday night.

British troops moved in as a last resort to try to separate the combatants and were themselves fired on. Such hazards are one reason Britain wants to surrender its police role to an international truce force.

The British said it appeared the fighting had stopped at 11:30 a.m. For a time the Greek Cypriots seemed to be on the verge of wiping out the Turks there.

The eruption of fighting broke a cease-fire arranged in Limassol by the British Wednesday night.

Maj. Gen. Peter Young British commander of the Cyprus truce force, had flown to Limassol with the Greek Cypriot interior minister, Polycarpus Yeo-gadjis, to talk to the combatants.

The savage fighting came as Undersecretary of State George Ball again met with President Makarios in an attempt to get his approval of an international force to keep the peace on Cyprus.

Greek Cypriot sources said Makarios had rejected the proposal, but the continued negotiations.

Thousands March On Police Station

Jaywalking Ticket Sparks OSU Students' Uprising

COLUMBUS, Ohio (AP)—Officials at Ohio State University were looking today for the ring-leaders of a rowdy demonstration by several thousand students that included a march on city police headquarters.

Dean of Men Mylin Ross told police that the leaders of the unannounced mass protest—which apparently stemmed from a front-page story in the campus newspaper about the arrest of a coed for failure to pay a jaywalking ticket—would be sought out and disciplined.

The demonstration began about 4:30 p.m. Wednesday at the spot near the campus where Marjorie Cocozziello, sophomore from Paterson, N.J., was given the jaywalking ticket.

At first only a few hundred students were on hands, but within an hour the crowd had

grown to what police later estimated was 5,000 to 6,000. One student carried a hurriedly made sign reading, "I'm an official OSU Jaywalker." It was one of the few signs seen.

The students—both men and women—crossed repeatedly in middle of the block on High Street between 14th and 15th avenues, chanting such phrases as "Hey Rover, Cross Over." Soon the crowd was so great the demonstrators formed a solid mass in the street. Within a short time a mammoth traffic jam had built up on the busy north-south artery.

The long line of stalled vehicles included dozens of city buses, many of them loaded with home-bound passengers. Some students climbed to the top of the buses. At least four were arrested.

Brown To Check Petitions

Sworn Affidavits Slated For Mailing By Rep. Taft

COLUMBUS, Ohio (AP) — Sworn affidavits attesting to the validity of Rep. Robert Taft Jr.'s petitions for entrance into the Republican U.S. Senate race were to be mailed today to Secretary of State Ted W. Brown, Taft's campaign manager said.

State Rep. Robert Reckman of Cincinnati issued a statement Wednesday night in reference to Brown's remark that there was a strong chance that Taft would be ruled off the May 5 ballot.

Brown, who himself has filed as a candidate in the Senate that would pit him against Taft, said he wanted to check some technicalities on possible errors in Taft's petitions.

He also said a determination would have to be made as to whether Lt. Col. John H. Glenn Jr. can be certified for the Democratic Senate race.

Glenn's Certification

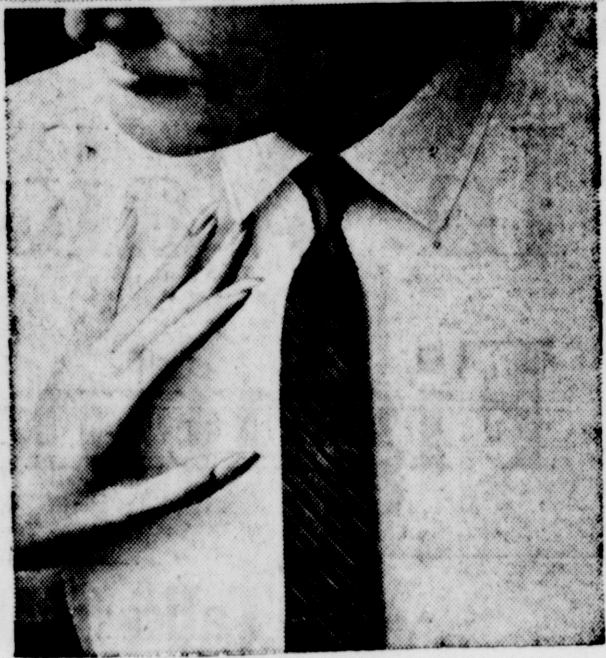

COLUMBUS, Ohio (AP) — Lt. Col. John H. Glenn Jr.'s campaign manager called today for the astronaut's immediate certification as a Democratic candidate for the U.S. senatorial nomination in the May 5 primary. James F. Bell, campaign manager and former Ohio Supreme Court judge, made the demand on Secretary of State Ted W. Brown.

The secretary said there is a question whether the former astronaut, in filing for a political race, violated the Federal Hatch

\$8 Million Food Processing Plant Due In Cleveland

CLEVELAND (AP) — An \$8 million development for construction of one of the nation's most modern and fully integrated meat and frozen food processing and distribution centers on the near West Side is in the planning stage.

Plans for the proposed project on a 35-acre site now occupied by the Cleveland Union Stock Yards Co. were disclosed Wednesday night by A.Z. Baker, president of the firm.

Richard L. DeChant, executive director of the Greater Cleveland Growth Board, hailed the new project as one that will create more jobs and help revitalize the food processing industry in this area.

Baker said he hoped the modernization program can reverse a trend which has reduced employment in Cleveland's primary meat processing industries from something over 2,500 in 1954 to less than 1,000 today.

Development plans call for modernization of the present stock yard operations at West 65th Street, construction of a one-story freezer warehouse, plus 12 or more specially designed structures for processing and distribution.

The proposed project will complement the company's existing livestock marketing facilities and the adjacent slaughtering and meat processing establishments.

Autos Hit Twice, But Drivers Give Varying Stories

Two autos collided twice within a short space of time Wednesday night about 11:30 in East End, but the drivers gave police varying accounts of the cause.

The two collisions involved a 1953 car driven by William Okey Bailey, 22, of Dixonville and a 1954 car driven by Melvin C. Harris, 23, of Substation. Police said there was damage to the front of Bailey's car and a dent in the rear bumper of the Harris auto.

Bailey said he was headed east on Pennsylvania Ave., following Harris, when Harris slammed on his brakes, causing Bailey's car to hit the rear of Harris' auto. Harris pulled out again with Bailey behind him, Bailey said. He said Harris then put on his brakes and shoved his car into reverse, hitting Bailey's auto.

Harris told police Bailey's car hit him in the rear at Pennsylvania Ave. near Harker Ave. He said Bailey hit him from the rear again a few blocks further east. Harris said he then pulled over to the curb, but Bailey continued, turning into Dewey Ave.

GM Told It Has No Monopoly On Word 'Cadillac'

GRAND RAPIDS, Mich. (AP) — A federal judge told General Motors Corp. Wednesday it does not have a monopoly on the word "Cadillac" and ordered it to pay \$41,000 to another company defending its right to use the name, too.

GM sought to enjoin Cadillac Boat Co. from use of Cadillac as a trademark, but U.S. Dist. Judge Noel P. Fox noted that the defendant started operations on the shore of Lake Cadillac and the name had geographic meaning.

Fox ordered GM to pay the boat company \$41,000 in attorney fees, holding that GM had attempted to place an economic burden upon "a small corporation of limited assets so that it would be forced to yield to the unjust demands of plaintiff."

ed at the same time in the preceding fiscal year.

Big increases also were shown in taxes collected on sales of motor vehicles and house trailers.

No Return To Isolationism

Are Americans being pushed back into isolation by too many foreign fingers jabbed into their eyes, too many kicks on the shins?

How will they react from discovery that the rest of the world really sees eye to eye with them on nothing of consequence?

Are the American people tough enough to withstand blows to their self-esteem delivered by governments openly trying to dissociate themselves from U.S. foreign policy?

And, most important, are Americans about to go back to a belief laid down by George Washington, himself—that the leaders of this Republic should be on guard against foreign influence?

From that warning grew a conviction that nothing but disenchantment ever could come from "foreign entanglements." From the conviction, in turn, grew isolationism.

EVERYTHING in national experience seemed to conspire against a sure touch in foreign relations—betrayals, sneak attacks, plots, obstructionism, lack of good faith, carping criticism, misrepresentation and a prevailing attitude that the United States was fit only to be gulled, or patronized.

Only with the hardest effort was this country pried out of isolationism in two world wars in this century.

Only with the hardest effort is it kept in step with the United Nations by its internationalist bloc—successor to the bloc that never did put it in step with the League of Nations.

And today, abused, betrayed, sold out and whipsawed by every society their money has helped, Americans would be other than human if they did not have sour misgivings about "internationalism."

They are cursed for being meddling if they intervene and for being indifferent if they keep their distance.

Liberty Always In Peril

It goes without saying that if the U.S. Senate shakes off Southern domination enough to pass a civil rights bill compatible with the bill passed by the House the struggle will not be over.

Every bill passed, every constitutional amendment ratified to underpin civil rights—or any rights—is a potential fetter on the freedom of everybody else.

This has been pointed out endlessly in connection with the vast body of laws and ordinances controlling the management of motor vehicles. Every restriction placed on auto drivers for the purpose of protecting the life and property of others is in some degree an infringement on freedom.

IF IT FALLS into careless or unfriendly hands for enforcement, it can be turned into an outright nuisance. It can be made the basis for highway robbery in Georgia, or a speed trap on the outskirts of a Northern city.

What's Being Proved

Forgive us, children, we know exactly what we do when we carry bickering to your classrooms and playgrounds.

You were born without prejudice and would live without prejudice unless you had it foisted on you.

All of us who cherish hates and dislikes poison your lives as you grow to maturity.

Even those of us who do not relish poison in our own lives make no effort to protect you as you grow up. We do not not immunize you with love and understanding.

We are passive under the pressure of the dynamic ones — the loud-mouths, agitators, rioters and arm-wavers. We are so afraid of becoming embroiled and being misunderstood if we speak out that we let ourselves be misrepresented by remaining silent.

And most unforgivably of all, we let the dynamic ones carry their differences to your classrooms and playgrounds.

FORGIVE US. These are not your affairs — not yet.

That should come later, when you are pushed out into a world you did not fashion but in which you will have to live.

To do this prematurely is as cruel as to take you out of a crib and ask you to fight a maniac for your life. People who do this to you — are they not maniacs by their own proving?

Can they be forgiven for intruding on the innocence of childhood in this way?

The innocence of childhood . . .

IT IS the only protection children possess when adults run amuck.

There is no way for children to share the venom, fears, machinations and schemings of their elders; they have not lived long enough to know about the corruptiveness of human existence.

They learn later, much later, that the same factors which cause some human beings to spend their lives in prisons of fear and eagerness to believe the worst of their fellowmen can cause others to live in confidence, love and desire to believe the best.

Think of them, too children, while you wonder about a disordered world in which adults carry their quarrels into the kindergarten, forcing babies to take sides on issues they cannot understand.

Momentous things are being proved, we

IF THEY TRY to help, their aid frequently ends up in the hands of opponents committed to America's destruction.

Their projects of intervention have been fantastically inept—from Yalta to the Bay of Pigs.

The credo of Yankee Doodle, that when people know him they will love him, has been a bad joke. "Yankee Go Home" would be the fervent admonition everywhere, if it were not for dollars that go with the Yankee presence.

The shrill pipings of internationalists cannot drown out the rumble of dissatisfaction with the way U.S. intervention has turned out.

But does dissatisfaction mean a return to isolationism?

That would be tragic.

Isolationism was a policy of aloofness—of having nothing to do with international politics. It was absurd in a world that can be circled in a few hours.

It was not. One Worldism that brought disenchantment but intervention.

THE UNITED STATES butted in too many places where it should have waited for an invitation, then turned down the invitation.

It barged through too many doors it found ajar.

It worked so hard to make itself loved it made itself ridiculous.

Its internationalist-interventionists did a disservice to their countrymen by going overboard, instead of using restraint. Violent reaction when disenchantment set in was unavoidable. That is happening now.

There should be no return to aloofness; isolationism would be insane in an interdependent world. There should be, however, adoption of dignity befitting the United States of America.

Isolationism would not be a fair swap for interventionism—and that is what has brought disenchantment.

The civil rights bill passed by the House can be misused and abused, like the civil rights laws that have preceded it. There is even the danger that courts might distort its intent.

But it is a fair statement of purpose in this sixth decade of the 20th century. The great majority of the people of the United States outside the irreconcilable Confederate states are determined to put an end to the unconstitutional maintenance of two classes of citizens.

THEY ARE WEARY of the injustice and bickering it causes at home and of the accusations of bad faith it generates abroad.

It may take many more years to destroy second-class citizenship in America, but every law to that end is a step forward—a commitment to do the right thing.

By Truman Twill

are told — things that will set the course of history for years to come.

MIGHT IT BE that the most momentous thing is proof that in our bickering and hate-ridden society no refuge has been set apart for children?

They have been denied even the protection they would have in primitive societies when trouble broke out.

Save the women and children first? Not any more.

Not when women are screaming in the front row of the rioters and the rioting is in school yards.

Busy Crossroads

The classic crossroads of the world, Istanbul, nowadays serves as a popular refuge for political escapees from East Europe. They flee through the strategic city to asylum in western countries.

Known to the ancients as the "Hub of the Universe", Istanbul is the only city that straddles two continents, Europe and Asia.

The one-and-a-half million citizens of Turkey's largest city live and work on each side of the Bosphorus. Residents think nothing of commuting from their suburban homes in Asia to offices in Europe.

The historic and commercial hub of Istanbul stretches along the European shore. Twisting, 2,000-year-old cobblestone streets thread spice-scented shops. Minarets of some 500 mosques point glittering fingers skyward.

Istanbul housewives have enjoyed the convenience of a giant shopping center for 500 years. The sprawling, centrally located, covered bazaar boasts 3,000 shops selling anything from saddles and samovars to hippopotamus skin shields and delicately wrought jewelry. The market place's 100 streets are dotted with fountains, squares, and restaurants for tired shoppers.

Across the Golden Horn lies Galata-Beyoglu, the bustling modern commercial sector. New office buildings rise back to back. One high, white, famed hotel offers swimming, ice skating, and roof-top dancing with a view of two continents.

The city which gave the world the tulip, the table fork, and the Turkish bath, claims to be the oldest continuously occupied large metropolis, going back some 2,500 years.

Today's column by Victor Riesel was written before a federal court order halted picketing by the Railway Telegraphers' union which had delayed work at Cape Kennedy Rocket base and the Merritt Island moonport. It is presented here as background information on the Florida situation.

By VICTOR RIESEL

A mystery force of dynamiters, acid throwers, snipers and guerrilla type saboteurs have made the route of the Coast Railway seem at times like the front south of Saigon, Viet Nam.

During the past 13 months this sabotage and vandalism has cost the line almost \$1 million in damage. About a hundred freight cars have been blown

off the tracks or derailed by iron bars and other obstacles.

There have been FBI and local probes of the guerrilla warfare against this Florida railroad which serves the Cape Kennedy rocket base, the Merritt Island moonport, Patrick Air Force Base and other military installations.

A few arrests have resulted, but no one seems to know exactly who has decided to give law and order a grim holiday along the 572-mile FECRR track running from Jacksonville to Miami. This has been a freight run ever since the road was struck by 11 off-train unions on Jan. 23, 1963. At that time the passenger service was discontinued.

IT'S INCONCEIVABLE that dynamite, physical assault and shooting could hit a railroad more than 210 times in little more than a year in the U.S. of 1964. Yet it has happened!

A typical derailment occurred Feb. 9 just north of Miami. Dy-

namite exploded and hurtled 32 cars into a stream and onto U.S. highway No. 1. Fortunately no one was crushed under the massive weight of the loaded cars. This was one blast which was widely publicized across the country—after this column had pointed out the dangers to our moon landing plans inherent in the year-old Florida crisis.

Just a few weeks earlier there was another derailment on the vital road which was virtually overlooked by the nation. On Jan. 10, 18 cars of a 64-car train were hurled from the tracks just above New Smyrna Beach. FBI men reported that a 5-foot length of rail was found stuffed between a switch point and a stock rail by "someone."

The FECRR charged "sabotage," while the striking union men said the accident resulted from a "hot box."

Again nobody was hurt, but this luck can't hold out forever.

If someone does get killed on this non-union railroad, some-

one will be blamed—rightly or wrongly—and there will be a bloody battle. Violence begets violence.

JUST LOOK at the record. Several bridges have been dynamited. Snipers have shot at engineers in locomotive cabs. Switches have been reversed or tampered with in the face of oncoming trains. Communications have been cut. Power lines have been slashed.

Whoever has been attacking the railroad appears to be at war, as well, with the company's executives and the more than 500 men who have replaced the strikers. Homes of supervisors and non-strikers have been splashed with paint. Their cars have been hit by searing acid. Men have been stoned upon entering railroad property. Others have been dragged from their autos and beaten.

Personal damage has been heavy in clothes, cars, and blood. But the FECRR's new

employees have stuck to their posts and their chiefs. And chairman of the board, Edward Ball and W. L. Thornton, vice president and operations director, have also stuck by the strikers' replacements, despite pressure from the government and labor to fire them.

THE MUTUAL antagonisms are understandable. Mr. Ball is rugged individualist who is running a struck freight service on time with a non-union crew.

The leaders of 11 striking unions and chiefs of the five "on-train" unions who have respected the pickets lines see this as a challenge to the entire railway union structure. If Florida East Coast succeeds in defying the long strike, it will be the first non-union railway to operate successfully in recent history.

Furthermore, despite a loss of \$15,000,000 in revenue, the F.E.C. claims to have started 1964 with a profit by eliminating featherbedding. The road now employs 700 instead of the 2,000 workers before the strike.

The company cites as an example the former use of 15 men in three five-man crews, working three hours each, to run a freight train from Jacksonville to Miami. Now, with the locomotive firemen eliminated and new rules instituted, the same run can be made by four men working one 8-hour shift.

As another measure, crews are no longer changed automatically every hundred miles as they were before the strike.

IN OTHER WORDS, the Florida East Coast Railway has put into effect the changes for which virtually all the other railroads of the country are fighting.

That's why the national leaders of railroad labor, who are battling so strongly against such changes, feel so intensely about the Florida strike that they are picketing to cut off supplies to Cape Kennedy's rockets and the Moonport.

This will be a tough struggle.

Congressman Hits Rights Pressure

By DAVID LAWRENCE

Ninety-eight years ago — after the Civil War was over — an intolerant majority in Congress disregarded the Constitution, took away seats from duly elected members of the House and Senate, and sent troops to certain states to compel the legislatures, at bayonet David Lawrence point, to "ratify" the 14th Amendment to the Constitution.

A "civil rights act" was subsequently passed, and the Supreme Court later declared it unconstitutional.

Today, nearly a century later, a frightened if not terrorized majority in the House of Representatives — stamped by nationwide "demonstrations" that have often led to violence — has passed a so-called "civil rights" bill which actually takes away some important civil rights from the citizens.

If the Senate now should pass the same bill as the House did, a federal police force would be authorized to enter any kind of business — not just hotels or restaurants — and investigate whether its hiring or promotion of employees is conducted on the basis of racial or religious "discrimination."

Although the measure passed the House by a vote of 290-130, Rep. Louis C. Wyman, R-NH, says that, if a secret ballot were taken in the House, the

legislation wouldn't get 50 votes.

MR. WYMAN was formerly attorney general of his state and also was president of the National Association of Attorneys General. He twice was elected chairman of the Standing Committee on Jurisprudence of the American Bar Association. Here are some extracts from a significant speech he delivered this week to the House of Representatives:

"This legislation makes a mockery of the Constitution. To yield to pressure for an unconstitutional law because of sympathy for social injustice is to say that the end justifies the means. . . .

"I came here to uphold the Constitution, not to destroy it. To uphold it I am compelled to vote against this bill. . . .

"It means finally that there is no power in this Congress to legislate as it here proposed in regard to private lives, private business, and individual activity within and among the several states having nothing to do with interstate commerce and not constituting state action.

"And it is the sheerest hypocrisy to contend that by so defining such private conduct that it becomes constitutionally amenable to federal law when the power to enact that law was never given to the federal government in the Constitution.

"It is hypocrisy compounded by fraud upon the people to ignore these basic truths because some members believe there are more votes for their reelection to be found in perpetuating the fraud than in pro-

tecting the constitutional rights of the people — all the people, both white and colored, Protestant, Catholic, Jewish and disbeliever. . . .

"THERE STILL ARE many private rights in America that under our Constitution are beyond the power of government to regulate, and one of these is the right to pick and choose one's associates, one's friends and one's customers in private business. . . .

"The passage of unconstitutional legislation in the face of political pressure, contrary to oath to support the Constitution, on the basis that the end justifies the means, is a perversion of our function as responsible legislators. . . .

"A vote here for this bill is a vote against the proper interests and reserved rights of the American people, not a vote for them. Make no mistake about one thing — that we are dealing with an iceberg here. Nineteenth of public opinion on this legislation has never been shown on the surface. When people realize what an invasion of their private rights is here involved — and they will come to realize it as time goes by — we can rest assured that law — we can rest assured that law — surely as there will be an 89th Congress a vote in favor of this bill will come back to haunt those who did so. . . .

IT SHOULD BE clearly understood in this connection that

Letter To The Editor

EDITOR OF THE REVIEW:

This is to protest strongly the advertisement which you printed on Page 6 of Monday's Review. What shall we call it, hate bill, smut bill? No words, in my opinion, are dire enough to describe its malefaction.

I feel you have served the cause of justice by publication of the advertisement. It certainly can't help but stir up the fervor of all the little and narrow-minded people whose minds feed hungrily upon matters of this nature. Their actions of violence and friction are fueled and kept alive by unregenerate literature of this nature.

And there's always the possibility that more hateful thoughts may appear in print, being supplied by what I regard as one of America's most shameful organizations — "The Citizens' Council of America."

On Page 10 of the same Review, Feb. 10, there appeared this line in reference to the

Civil Rights bill — "Passage Seen Assured." Any fair-minded person must then admit that this is the year 1964 and that the article on Page 6 is a bit late — say something like 100 years too late. Don't you think so, Mr. Editor?

The decision to postpone election of officers until after the homecoming in July was made by the Highlandtown Women's Corps Tuesday night in the fire hall.

A bake sale was planned for Feb. 29 at 10 a. m. at Curry's Service Station and Hays Service Station in Highlandtown. To donate or for pickups, Mrs. Edwin Bettis may be contacted at LE. 2-3703. Mrs. Verla Culp, president, presided. Mrs. Evelyn Taggart and Mrs. Janet Taggart served lunch to 13. The group will meet March 10.

Fire Causes Damage To 5-Store Garage

A five-store garage at Maple and Cherry Alleys, Wellsville, was heavily damaged by fire Wednesday night at 8:45, firemen said.

The building is owned by Mrs. Delmar T. O'Hara, 311 Main St.

Firemen estimated damage at \$1,000 to the building and \$200 to contents. Sam Love of Wellsville and the O'Hara family both had articles stored in the garages, firemen said. The cause was not determined.

Joins In 'K. O. Polio'

Chamber At Midland Aids Vaccine Program

The Midland Area Chamber of Commerce, Wednesday night named two members to a steering committee for "Operation K.O. Polio" and approved a Dollars for Scholars solicitation.

The Chamber Board of Directors met at the McGeehan Agency after attending a meeting at the Borough Building at which the Human-Relations Commission explained to employers the committee's recommendations on fair hiring practices.

Glenn B. Roberts, vice chairman of the commission and the Chamber's representative on that group, conducted the meeting. About 25 attended.

Guy E. Gengarella, new president, conducted the Chamber's meeting. Miss Dorothy Shevenough of Midland and Earl Rankin of Industry, executive secretary of the Chamber, were named to the committee for

the distribution of oral polio vaccine in Midland March 1, April 5 and May 10.

The vaccine program is being sponsored by the United Fund of Beaver County, in co-operation with the Beaver County Medical Society.

The board approved a proposed Dollars for Scholars solicitation after an explanation of the goals of the organization by the Midland trustees of the foundation.

Local school districts represented in the foundation will conduct fund-raising campaigns to assist students of their districts who need financial help to further their education after high school.

Directors also discussed the membership drive now under way, and made plans to take down remaining Christmas decorations. Next meeting will be March 11.

Students

rested for removing bus trolley poles from overhead wires.

After about two hours the students began to leave that area but a crowd of about 1,000 started on the three-mile march down High Street to the police station in downtown Columbus. There were a few reports of damage along the way, including smashed auto windows and a damaged theater marquee.

Police followed the marchers but made no effort to turn them back. When the crowd reached police headquarters, the students began chanting for Police Chief George W. Scholer. Scholer appeared and attempted to speak but was unable to make himself heard.

The chief said he would be happy to meet with student representatives today, and then departed. A short time later, the crowd started the long trek in 31-degree weather back to the campus.

Late Wednesday night a big bonfire was burning in the middle of High Street at 15th Avenue on the eastern edge of the campus where the original demonstration occurred. Police and safety officials allowed it to burn in the block which had been closed to traffic. A spokesman for the City Safety Director's Office said it was decided to let the students "get rid of some steam."

Miss Cocozziello was cited for jaywalking last Oct. 8 but was not arrested until Monday night following her failure to appear on the charge. She said she intended to pay it but forgot about it during recent final exams.

She was kept in a cell at the jail for about an hour and a half, she said, after being searched by a matron. She said she also was not permitted to call her father, John B., a contractor in Paterson.

Miss Cocozziello appeared earlier Wednesday before Municipal Court Judge Alan Schwarzwaldner and her \$5 fine and \$8 court costs were suspended.

Officials said there was nothing to indicate the protest had any connection with the scheduled appearance on the campus today of Gov. George Wallace of Alabama, controversial critic of federal civil rights legislation.

Albert Kell Returned As Brotherhood Head

Other officers named were Hubert Myers, vice president; William McKnight, secretary, and Forrest McDonald, treasurer.

Lunch was served by Kell and Myers. The group will meet March 11.

junction with State St. After crashing through the wooden guardrail, it dived down a small embankment, crossed State St. and hit the building. The front of the car smashed through the building's wall. The crash was timed at 6:50 a. m.

Another mishap at 8:51 this morning at St. George and Beek Sts. involved an auto driven by Andrew Holtz, 52, of 901 St. George St. and a truck owned by Ohio Delivery, Inc., of Columbus and operated by Don-

ald J. Nicewander of Massillon, police said.

Holtz was pulling from a parking space at the curb when the trucker, attempting to avoid the auto, skidded and hit on the left front.

Out Of The Air

By HAL HUMPHREY

Mitzi Gaynor Is Four-Boy Dancer

Next to that forced jollity of Arlene Francis and Dorothy Kilgallen on "What's My Line?" I am also up to here with girl dancers who charge onto my TV screen chased by four to eight chorus boys. To the synthetic beat of something halfway between jitter-bugging and Hal Humphrey an Afro-Cuban mambo, the dancer and her boys gyrate around the stage (usually in tight capris) as if they were climbing the walls in a funny-house.

After 50 or 60 times around, these dance numbers are as easy to predict, step by step, as a Western drama involving squatters and cattle barons.

SOMEWHERE, one would think, there has got to be a choreographer with enough originality to change the stereotyped pattern. So far, he hasn't danced onto my TV horizon.

Mitzi Gaynor, one of the sharpest modern dancers in these parts, thinks I am exaggerating the situation. She insists each choreographer has a different style. Obviously I am missing the finer points in these numbers.

"Anyway," Mitzi argued, "a girl can't dance alone for 25 minutes. She would collapse. And it doesn't make sense to dance with girl dancers."

MITZI, by the way, I found, is a four-boy girl dancer. She and her quartette have been rehearsing diligently for next Sunday's turn on Ed Sullivan's show.

She will do a straight 18 or 19 minutes, which is like being nominated for president of the United States. Sullivan won't give that much time to World War III. Belafonte got 12 straight minutes a few years ago and nearly wound up in the Hall of Fame.

"Ed has been after me for nine years to do his show," reported Mitzi. "The closest I'd come to it before this was two bows from his audience."

MITZI TRIES to stay away from TV. If she blows too much of her night club act and her \$12,000 wardrobe on the home screen, who is going to pay those cover charges to see her in the flesh?

This time Mitzi, through her business manager - husband, Jack Bean, asked for so much money they felt sure Sullivan would back off. But Sullivan called their hand and even promised them 20 minutes of time.

"You won't see my four boys out there throwing their arms around and shouting, 'Here she comes! Here she comes!' There

will be just a drum roll, the camera goes to black for a second, then there I am," Mitzi explained, an accusing glint in her eyes.

"MY FOUR BOYS perform on their own, too. They're not carbon copies of each other like with the same haircuts. I do a solo number and some comedy besides," she added.

Sullivan will be doing next Sunday's show from the Deauville Hotel in Miami and is bringing Britain's "Beatles" back for a second round. The "Beatles" plus Mitzi should give Sullivan his biggest rating since he showed us half of Elvis Presley.

I sat around watching Mitzi rehearse and must say that she could easily change my views on the subject of girl dancers on TV. When Mitzi comes on, you don't even notice the boys.

HER EAGER press agent sitting next to me said, "Juliet Prowse might know a step or two Mitzi doesn't know, and maybe Doris Day can sing a little better, but Mitzi is a package. She can sing and dance. You see what I mean about a package?"

I did indeed, and I've never seen one wrapped so well. I have no idea what outlandish price Sullivan paid for this package, but he wasn't cheated. Sullivan is a showman, and that's why he has outlasted everything and everybody on TV except "Meet the Press." Even Sullivan has not been able to top a politician explaining ("in all humility") how to run our country.

Intruder Enters Firm In East End

An intruder may have been injured when he accidentally broke a sink after forcing entry to a restroom at the Kerr Lumber Co. on Virginia Ave. Wednesday night or early today, police said.

The burglar climbed a fence between the lumber company and the adjoining Wallover Oil Co., then broke a 24-x-30-inch window to enter a stockroom. He broke a door off its hasp to leave the stockroom.

Then he crossed a driveway and entered the restroom via a window. The fact the sink was broken indicates the intruder may have fallen on it and injured himself as he descended from the window, police said. A preliminary check showed nothing was missing. The entry was discovered at 8:30 this morning by Charles Wagner, yard foreman.

Chester Driver's Auto Hits Train

A Chester man was cited early this morning after his convertible crashed into a slow-moving freight train at a New Cumberland crossing.

Stephen Chapko, 53, of Chester R. D. 1 was due for a hearing at 3 p. m. today before Squire John D. Herron on a charge of failing to have his vehicle under control.

Chapko was cited by Police Chief William Webster of New Cumberland after his 1960 auto hit a tank car on a southbound Pennsylvania Railroad freight

train at the Dump Bridge crossing on N. Chester St.

The Chester area motorist told the chief he didn't see the train but Chief Webster said the engine and head cars already had passed the crossing. The engineer apparently was unaware of the mishap since the train kept moving, the chief added.

He estimated about \$500 damage to Chapko's auto.

Resident Hospital Doctor Proposal Aired In Report

A report on a study into the possibility of obtaining a resident doctor at City Hospital was issued today by a committee of the East Liverpool and Wellsville Junior Chambers of Commerce.

Both Jaycee groups have agreed to continue the study. The project was started by the Wellsville Jaycees. More than a month ago, the East Liverpool Jaycees were invited to participate.

The study is being headed by Richard Kevan, president of the Wellsville Jaycees, and Robert Conroy, a member of the East Liverpool Board of Directors.

They met recently with the executive committee of the City Hospital medical staff. Present were Dr. J. W. Schoolnic, president; Dr. William J. Horger, secretary, and Dr. J. Keith Rugh, Dr. J. M. Brand and Dr. John A. Fraser.

The doctors feel they are providing good emergency service at the hospital, the committee reported, and said in their opinion some 80 per cent of the cases at the emergency room are not really emergencies. They classified emergencies as the danger of loss of life, possible deformation and all burns.

The doctors said they also feel the public should be educated as to what actually constitutes an emergency and that anyone involved in an injury should first contact their family physician, if possible.

Under the emergency setup at the hospital, there are 22 doctors on call. Each serves for one 24-hour period. And although they do not have to be present

at all times, the one on duty is subject to call any time during that period.

The physicians also pointed out that a nurse has been assigned to full-time duty at the emergency room. In the past any nurse who happened to be free could be called.

The committee said the doctors were questioned about possible mishandling of emergency cases. The doctors said in their opinion, only about 1 out of 1,000 is possibly mishandled.

When asked about obtaining a resident physician, the doctors said they do not object, but would not support obtaining one unless facts prove the necessity. At this time the doctors feel this is a "luxury" item, the committee reported.

Any final decision on the matter rests with the City Hospital Board of Directors.

The committee said it was agreed that three resident physicians would be adequate at City Hospital, with the plan costing an estimated \$50,000 per year.

There are six resident physicians at Weirton General Hospital. The patient cost per day there is over \$29, while at City Hospital the patient cost is just over \$23 per day.

Someone would have to absorb the cost of resident physicians and it probably would be the patients, the medical staff pointed out.

The committee reported the doctors said they will be glad to speak to the general membership of both groups and also invited representatives back to future meetings to discuss the proposal.

3 Tentative Dates Selected For Reunion Of 1948 Class

Three possible dates for a reunion of the Class of 1948 of East Liverpool High School were set at a meeting of committees Tuesday night at the Potters Savings & Loan Co. annex.

Co-chairmen and committees were named.

Mrs. Betty Lou Arcuragi and Mrs. Thelma Green were appointed co-chairmen. The three dates picked are June 27, July 25 and Aug. 15.

Letters will be sent to former class members, informing them of the event and asking them to select one of the dates. March 15 was set as the deadline for the replies.

The date selected by the majority of those now residing out of town probably will be followed.

The committee named to handle the mailing includes Mrs. Arcuragi, Mrs. Green, Mrs. Betty Harvey, Mrs. Jackie Hartenbach and Mrs. Hannah Greenburg.

Mrs. Harvey and Mrs. Mary Lou Springer were named treasurers.

Mrs. Eileen Seckman and Mrs. Violet Purton were appointed to select prizes.

The publicity committee includes Miss Phyllis Hackathorn, Mrs. Esther Thorne and Paul Zehnder. Mrs. Rose Marie Ensinger will head the greeting committee.

Next committee meeting will be March 31.

Act which with certain exceptions bans political activity by military employees.

Glenn's headquarters said Wednesday he has not violated the act and predicted his petitions will be certified.

Reckman called Taft's position "incomprehensible" and said "no communication of any sort has been received by Mr. Taft or me from Brown."

"The reported deficiencies relate to corrections of date and place of verification, all of which were made before notarization and circulation," Reckman said.

Brown said he expected to be taken to court if he does rule Taft's petitions invalid and added that he would expect the matter to be settled by the Ohio Supreme Court.

"If I leave him on the ballot, someone will take me to court," Ohio's chief elections official said without elaborating.

Cyprus

(Continued from Page 1)

tations lent some hope that the Greek Cypriot leader would modify his stand. Ball postponed his departure Wednesday night to continue the talks.

The shooting finally stopped to allow Ian William, a British official, to enter the besieged Turkish sector and bring out the local Turkish Cypriot leader, Ramadan Djemil, for peace talks.

An informed British source said the Turks had been taking "a very bad beating" from the Greek Cypriots and were in danger of being wiped out.

The Turkish Cypriots in the area were reported surrounded and the source said the Greeks have launched a complete military operation against them.

The government radio said the new battle, the third in as many days at Limassol, broke out at dawn around Berengaria castle at the approaches of the second largest city of Cyprus.

The fighting lent fresh urgency to Ball's mission. The U.S.-British proposals would keep the U.N. Security Council out of the situation.

Ball had planned to leave Wednesday night. Instead, he stayed over and held another conference with Makarios this morning.

Urges Summit Conference

Nixon Declares Alliance To Halt Reds Crumbling

CINCINNATI (AP) — Richard M. Nixon, vice president under former President Dwight D. Eisenhower, says the "grand alliance" formed by Eisenhower to stop the spread of communism "is coming apart at the seams."

He urged there be a summit conference involving the United States, France, Great Britain and West Germany to form a united front against communism in Africa, Southeast Asia and other world trouble spots.

Nixon, speaking at a Hamilton County Republican Party Lincoln Day Dinner Wednesday night, criticized President Johnson's foreign policy. He said it is inconsistent, uncertain and has the appearance of weakness.

"We cannot sell wheat to Russia and then object when our allies want to sell strategic materials to Castro."

"One day our position is one of supporting a free Viet Nam; the next day we give support to those who are calling for neutralism in that area."

"It is difficult to name any place in the world where the United States is not being blackmailed, threatened, insulted or kicked around by some pipsqueak dictator."

Of nations which seek to have a policy of neutrality, Nixon said "No nation in the world could afford the luxury of neutrality if it were not for the power of the United States."

As for Panama, many issues could be negotiated, he said, but "as far as treaty rights are concerned — the operation of the canal and maintenance of the Canal Zone — these are rights which are not negotiable."

Nixon also gave considerable time to the civil rights bill passed by the House. He said, "A law is only as good as the will of the people to keep it."

The Lenten Story

BY WOODIE ISHMAEL

JESUS ENTERS JERICHO

The little man in the sycamore tree was a rich and rather infamous person in Jericho. He was Zacchaeus, chief among the town's publicans. Hearing that Jesus was coming on His last, momentous journey to Jerusalem, he had climbed up for a better view.

"Zacchaeus, make haste and come down," Jesus called out to him, "for today I must abide at thy house."

The crowd murmured about Jesus staying at the house of a sinner, but He used the opportunity to show He had come to save all mankind.

"This day is salvation come to this house," He said, "forasmuch as he also is a son of Abraham. For the Son of Man is come to seek and to save that which was lost."

Evidence Piling Up

2 More Witnesses Slated In Assassination Probe

WASHINGTON (AP) — The Warren commission may call one or possibly two new witnesses next week to build its growing pile of evidence on the assassination of President John F. Kennedy.

Chief Justice Earl Warren told newsmen he did not know whether one would be a janitor who reportedly saw sharpshooter Lee Harvey Oswald en route to a sniper's hideaway shortly before the deadly rifle shots were fired in Dallas last Nov. 22.

Marguerite Oswald, mother of the introverted ex-Marine charged with killing Kennedy, finished three days of voluntary testimony Wednesday by stating she believes:

—That Oswald was innocent, but "I realize that as a human being he could be guilty."

—That despite lack of any specific supporting evidence, she believes he was a secret agent of the U.S. Central Intelligence Agency who was "set up to take the blame" for the slaying.

—That the assassin "is still at large."

Warren said the testimony of the plump Fort Worth practical nurse was useful "in some respects," but said it did not provide "any facts that would change the picture as we knew it up to the time she testified."

The bulk of the evidence before the commission—including a five-volume FBI report and the testimony of Oswald's young widow, Marina — indicates the 24-year-old Marxist killed Kennedy unaided.

The chief justice said the commission has received nothing from any agency to substantiate the mother's belief that Oswald ever was an intelligence agent or worked for any federal agency.

Mrs. Oswald admitted her belief was based on no proof, fact, or statement of her son, but asserted: "I have as much circumstantial evidence that he was (an agent), as the Dallas police have that he was the assassin."

She said she had not been in touch with her son for a year before the assassination.

Wallace Slated For Talks Today At OSU Campus

COLUMBUS, Ohio (AP) — Gov. George C. Wallace of Alabama, who attacked the proposed federal civil rights bill at a news conference here Wednesday, was expected to continue the campaign today with two speeches at Ohio State University.

Wallace's appearance at the hotel news conference was marked by the absence of pickets, but local members of the Congress of Racial Equality and the National Association for the Advancement of Colored People were expected to follow him today.

He was to appear before an Ohio State audience in the afternoon and later before the local chapter of Sigma Delta Chi, national professional journalistic society.

The governor told reporters Wednesday that the civil rights bill awaiting action in the Senate would "destroy the concept of America" by making the country a "virtual police state."

His purpose, the controversial Southern governor said, was to try to awaken the American public to the dangers of the legislation.

Hints from Heloise

— By Heloise Cruise —

DEAR HELOISE: After reading about your nylon net bags you made for washing stockings, I thought you might be interested in how I use mine.

I made some BIG nylon net bags with a drawstring at the top and hung one in each bathroom. Now at night when my children take off their stockings, I have them put the stockings in these bags.

On washdays, I simply gather the drawstrings and toss the bags in the washing machine.

After the stockings are washed and rinsed I take them out of the bag and pin them on the line, or I leave them in the separate bags and toss them in the dryer.

This saves hunting mates for socks... since they are all in the same bag.

MRS. NELSON DENVER.

DEAR HELOISE: I have a problem. I used to pour cooking oil directly from the bottle, wipe the bottle and replace it on my shelf. Invariably some of the oil leaked onto the shelf and formed sort of a film. I have yet to find anything that will remove it.

I now put the bottle in a little dish but the dish has a film that I can't remove either. Can anyone help me?

P. B. K.

DEAR P. B. K. I have never seen a bottle of oil yet that didn't eventually get that film on the outside.

I prevent this by tearing off a piece of foil, setting my bottle in the middle of it and pressing the foil up around the sides of the bottle and gently squeezing with my hands. This forms a little foil cup on the outside. It prevents the shelf from getting soiled.

When this foil gets a film on it, it may be discarded and replaced with a new piece.

Until someone comes up with the answer on how to get that film off the bottle, try this method.

Does anyone know how to remove this film? If so, do drop us a line. We will appreciate it very much.

HELOISE.

DEAR HELOISE: I add a handful of table salt to my last rinse water and my clothes do not freeze to the clothesline while they are drying.

ALICE BEARD.

DEAR HELOISE: Will you please tell me how to remove a tomato juice stain from my white cotton tablecloth?

MOTHER.

DEAR MOTHER: I'm sure that you have washed your cloth by now. However, try this: Buy some glycerin at your drug store (not too much — an ounce will last you a long time) and work this into the stain. Let it set awhile and then wash as usual.

Sometimes a slight stain will remain. If you are sure your cloth is cotton, try blotting it with a piece of cotton dabbed with hydrogen peroxide. Naturally... you will have to wash the cloth again.

HELOISE.

DEAR HELOISE: Some folks still enjoy doing embroidery.

I wind each color of thread on the pages of a small paper book keeping different shades of the same color of thread in the same volume. I wind the thread from the top to the bottom of every few pages. There is no more tangling of my embroidery thread and it's easy to pick out the color I want.

FUSSY.

DEAR HELOISE: Several years ago I had some pecan halves that were old and tasteless.

I melted some margarine, poured it over the pecans in a shallow pan and baked them in a very slow oven until the nuts were crisp again.

I then sprinkled salt over them and they tasted like the salted nuts purchased at the store.

APPRECIATIVE.

Bringing Up A Family

By DR. GARRY MEYERS

Sudden Slump Needs Immediate Study

Sometimes we hear about the child who for several months or years had been doing average or superior work at school, suddenly slumping, even getting failing grades. An occasional mother writes me of such a child. It's not always easy for a parent or teacher, or both working Dr. Garry Meyers together, to ascertain the cause of such a sudden drop in school success or to know what to do about the matter. It may require the help of a specialist, even of a psychiatrist.

When we go looking for the cause or causes we may find them in some kind of unhappy emotional experiences related to other persons, playmates or pals; to parents or other members of the family, or to experiences which seem wholly unrelated to school learning.

IF YOU HAVE a child who suddenly has slumped in his school work you should, of course, have his health checked by your physician.

It's fortunate if you have had close companionable relations with this child. Then he might readily let you know what has been worrying him and making him unhappy. Instead of these being many factors, only one may predominate.

Some cause or causes may be manifest, such as the death of a parent or other member of the family or a close, devoted friend; strained relations or bickering and quarrelling between the parents, or their divorce or separation.

The child may have suffered disappointment in some of his strivings outside of his school work. So many things might have happened to discourage this child or worry him or her.

SOME MATTER which might seem small to you and me and other adults might be the largest item. When we imagine all the possible experiences or combinations of them they may surpass our comprehension, so variable and far-reaching may be the causes for disturbing or unhappy emotions.

The experts may conclude that your child is "emotionally disturbed." Such diagnosis may give you and the teacher temporary relief and suggest the matter is beyond your responsibility.

The term "emotionally disturbed" might sound ominous, awesome to you and your remaining hope may be in the experts. In the meanwhile, you might concern yourself further at seeking ways to help this child find new urges for striving and better ways to employ effort toward greater school achievement.

BE SURE to look into his learning failures and successes

2 Women Clerks Thwart Robber In Painesville

PAINESVILLE, Ohio (AP)—Two women clerks at the J. J. Newberry Department Store stood their ground Wednesday when a man with a gun in one hand and a blackjack in the other burst into their second-floor office.

The gunman, with thinning black hair and black horn-rimmed glasses, demanded the combination of the safe from Toni Plumstead, 19, and Virginia Williamson, 40.

The clerks said they didn't know the combination.

When the gunman ordered the women to lie down on the floor, Mrs. Williamson got mad and said she "certainly would do nothing of the kind."

"I guess that kind of stunned him," Miss Plumstead explained afterward. "He just turned and walked out of the office."

Miss Plumstead said the would-be robber missed getting \$1,600 in the office and an undisclosed sum in the safe—which was unlocked.

The third promotion was that of Walter Lake of Beaver to division industrial engineer in the flat rolled products division. He joined Crucible in 1956 and was senior industrial engineer.

Ann Landers

ANSWERS YOUR PROBLEMS

Dear Ann Landers: Our 19-year-old son is giving his 18-year-old girl friend a dress for her birthday. The price, whether it is \$1.98 or \$49.98, is of little consequence. It is the principle to which I object. Both of these teen-agers are in college. They have been going steady for 15 months.

I have been assured by my son and by a friend who is the mother of two teen-agers that I'm hopelessly square. They promise me I will eat my words when I read your reply in the paper. I have the knife and fork ready. How about it? — FOGGY OF 40.

Dear 40: Hand the silverware to them, Mother. A dress is not a proper gift from a teen-age boy to his girl.

Ask your son if he would like his sweetheart to buy him a suit for his birthday. Same thing.

Happy 'Slobs'

Dear Ann: The letter signed "Unappreciated" made me fighting mad. I happen to be a wife who likes to sleep late, too. My husband is perfectly relaxed about fixing the kids' breakfast. It's not that big a deal.

There's no doubt that he is an exceptional man. I hear my friends complaining about their husbands all the time and I can't find anything wrong with mine. I notice that the women who complain the loudest are the meticulous housekeepers and the spectacular cooks. If one of their husbands ever put a briefcase on the dining room table he'd get shot.

When my husband comes home at night he can drop his socks and shoes wherever he wants to. I don't care if he tracks in a little snow or mud. The house is to live in and I want him to enjoy it.

Maybe we are slobs, but we're happy slobs and we get along just fine. So why don't people just mind their own business? — I APPRECIATE HIM.

Dear Appreciate Him: Apparently you are doing a

mighty good job of minding yours. Congratulations on what sounds like a mutually rewarding and durable relationship.

Cinderella Role

Dear Ann: I don't want you to think I hate my mother, because I really do love her very much. But when she treats my older sister like a queen and I get treated like Cinderella it makes me so unhappy I don't know what to do.

I'm 14 and my sister, Janice, is 16. It all started in September when Janice went into the 10th grade. Mother bought her loads of pretty clothes because she said it was important for Janice to look just right.

I didn't get anything new. I got some of Janice's worn skirts and blouses — only because Janice's clothes closet was crowded, and she had to make room for the new things. Mom drives Janice everywhere she wants to go. When I ask Mom to drive me some place she tells me to stay home

and do my school work. I'd leave home if I knew where to go. Please tell me what to do. — BORN TOO LATE.

Dear Born: It's always painful to feel that a parent is favoring a brother or a sister over you. Every child who ever grew up with a brother or sister has had this feeling at one time or another.

Try to be pleasant and uncomplaining. Fourteen is a horrible age for a girl who has a sister 16. The world will look brighter when you are 16 and she is 18.

Confidentially

TO CLOSED MIND: Not only closed but nailed shut, my friend. I suggest you open it occasionally. Something of value may drop in.

Ann Landers will be glad to help you with your problems. Send them to her in care of The Review, enclosing a stamped, self-addressed envelope.

Wellsville Woman To Mark 100th Birthday Wednesday

Wellsville's oldest resident, Mrs. Alice Mae Boothman, born during the Civil War strife, will quietly observe her 100th birthday anniversary Wednesday in the Riverside Nursing Home.

To mark the occasion, she will have a birthday cake of her choice — a white one with pink icing decorated with candles — together with ice cream which she will share with others in the nursing home.

The large cake was provided by her daughter, Mrs. Florence Arnold, who is wintering in Florida. A more personal observance will be held when the centennarian's granddaughter, Mrs. Geraldine McNeal, of Canfield and Mrs. Ollie Foreman, operator of the nursing home, will have dinner with her in her room.

Although her eyesight does not permit her to read or watch television, she is able to get around in her walker with help and can walk around the home when aided. She still has a keen interest in what is happening locally and in the world and listens to her radio. Especially does she look forward to the Sunday broadcast of the church service and sermon by the Rev. Alexander Davidson of East Liverpool. She also has the Bible read to her daily.

Mrs. Boothman was born on a farm in Fulton County and before moving to Wellsville in 1922, she spent most of her life at Bryan. She is a former member of the Order of Eastern Star, a charter member of the DAR and a member of the Riverside United Presbyterian Church. Aside from her daughter and granddaughter, she has a great-granddaughter, Penny McNeal.

Henry Ford II And Wife End 23 Years Of Marriage

FAIRFIELD, Idaho (AP)—A routine, 20-minute court-hearing Wednesday dissolved the marriage of auto maker Henry Ford II and his wife, Anne—a marriage that was launched in glittering style 23 years ago.

The uncontested divorce was granted Mrs. Ford on grounds of mental cruelty by Judge Charles Scoggin. A year ago he issued a divorce decree for Margaretta Fittler Murphy, who later became the wife of New York Gov. Nelson A. Rockefeller.

Mrs. Ford, 44, was awarded custody of the couple's only minor child, Edsel Bryant Ford, 14, with visitation right by his father. The couple has two other children, Charlotte, 22, and Anne, 21.

Mrs. Ford, the former Anne McDonnell of Southampton, Long Island, N. Y., was driven

45 miles from her Sun Valley cottage to this south-central Idaho farm community for the hearing. She returned to the seclusion of the ski lodge.

"All property rights had been settled by agreement at the time of their separation last summer," a court statement said. No details were disclosed.

Ford, 45, grandson of the late Henry Ford, had no comment on the divorce. He was in Detroit for a routine meeting of the Ford Motor Co. board of directors, of which he is chairman. An attorney represented him at the divorce hearing.

Ford has been linked romantically with blonde, Italian-born Maria Christina Vettore Austin, 34, the divorced wife of a British naval officer.

Mrs. Austin, in New York, declined to speak to newsmen.

Potters Out To Push Winning Streak To 5 Against Purple Riders

A victory Friday night over Martins Ferry might mean a .500 season for the streaking East Liverpool Potters, winners of their last four outings.

With an 8-8 record in the books the Potters stand a better chance of upending a hot and cold Purple Rider club than they would against Weirton which invades East Liverpool for the season's finale on Feb. 21.

A split in the last two games would give Coach Jim Harris' team an

Ferry Sports 9-6 Record

even mark for the 18-game schedule.

Martins Ferry, under Coach George Milvey, will bring a 9-6 record to Memorial Auditorium Friday night.

The Potters will be facing a hustling Rider five which employs a good press and are known to be a scrappy club.

Two of the six losses on the Martins Ferry

slate this season came last weekend. Wheeling and Bellaire handed the Riders defeats but two mainstays of the Ferry club weren't up to par after a battle with the flu.

They were the team's leading scorers. Bob DiStefano, the All-Ohio quarterback and captain Mike Lucas. The pair only saw part time service last weekend but

are ready to go full tilt against the Potters.

DiStefano is averaging about 15 points a game but turns in a good floor game. He also can score well after hitting 33 points in one game this season. Lucas, 5-10½ senior, leads the Riders in scoring with 17.

Rounding out the lineup is Dave Samuel, slender 6-2 senior, Frank

West, 6-2 senior and Ken Joseph, 5-11 senior.

Harris, who has watched his team go hot and cold this season, and at present is hot with a streak of four straight, will probably use seven players who have done most of the work this season.

Leading scorers Frank McComas and Bob Forzano will be in the starting five along with Randy Stover, Bob Maltrich and Bill Hall. Frank Taylor and Dave Bowersock also will be ready to be pressed into service

Fouls Mark West Virginia Victory Over Pitt, 86-84

By HAL BOCK
Associated Press Sports Writer

Billy Cunningham is a wonderful basketball player but the North Carolina star does have one drawback. He scores too much.

Cunningham hit 10 baskets against New York University at Madison Square Garden Wednesday night, but he would have settled for eight. The other

two drew offensive fouls and the high-scoring junior spent the last 11 minutes watching from the bench as the Violets held off a desperate Tar Heel rally and won 69-68.

NYU led by seven when Cunningham drew his fifth personal with 11:29 remaining. But instead of folding, North Carolina rallied and caught the Violets. Bryan McSweeney's bucket put

UNC in front 66-65 with two minutes to play.

Then a couple of sophs pulled the wilting Violets together. Carleton Rooks regained the lead on a jump shot and Stan McKenzie stole the ball and drove in for a 69-66 NYU lead.

Barry Kramer led the Violets with 22 while Cunningham's 23 topped all scorers.

Fouls also figured prominently in West Virginia's 86-84 victory over Pitt. The Panthers lost four players on personals and the Mountaineers one as 68 fouls were called.

Cal Sheffield led Pitt with 22 before fouling out with eight minutes to play. Bill Maphis' 22 topped West Virginia.

EL Matmen Rout Boardman, 38-5

Coach Rey Peduzzi's Potter wrestlers claimed their seventh victory against three losses and a tie in rolling past Boardman, 38-5, Wednesday at Memorial Auditorium.

East Liverpool won every match but the 123-pound class where Danzo was pinned by Boardman's VanFossen in 1:02 of the second period.

The Potters recorded two pins, two forfeits and six decisions to smother the Spartans.

Whit Foster (141) wasn't on the mat long when he disposed of his opponent in 52 seconds of the first period. Marshall, the Potters 168-pounder gained the other pin in 1:41 of the third period.

The results follow:
103 — Calhoun (EL) decisioned Sheets (B) 7-0.
115 — House (EL) decisioned Marrie (B) 7-1.
123 — VanFossen (B) pinned Danzo (EL) 3:02.
103 — Logan (EL) decisioned Hardin (B) 3-2.
136 — Francis (EL) decisioned Ciolli (B) 3-2.
141 — Foster (EL) pinned Price (B) 52 seconds.
148 — Nusser (EL) decisioned Vath (B) 6-0.
157 — Smith (EL) decisioned Greer (B) 6-5.
168 — Marshall (EL) pinned Tumbri (B) 5:41.
178 — Snowden (EL) won by forfeit.

Red Montgomery Heads EL Pony League For '64

The East Liverpool Pony League will meet again Monday at 7 p. m. at the Travelers Hotel with anyone interested in Pony League baseball invited to attend.

J. Allen (Red) Montgomery has been elected president for the 1964 season with Bob Bartman, player agent and Roy Cooper, representative for the Kiwanis Club.

Colin Neal will serve as secretary and Jim Rainey as treasurer. They are also representatives of the Kiwanis Club.

A discussion on completion of the field in Dixonville will be held and Tom Kidder is field chairman.

Mike Pusateri, local excavator, has already donated equipment to help complete the work on the field.

Pete Ward of the Chicago White Sox led American League third basemen in hitting last season with .295. Boston's Frank Malzone was next with .291.

It was a costly triumph for Tech, though. High scorer R. D. Craddock took a bad tumble while driving for a basket with 1:35 left to play. Craddock, who led Tech with 20 points, flipped over and was knocked unconscious. He suffered a concussion and severe head laceration.

The point makers were also hard at work. Butch Komives of Bowling Green, the country's leading scorer with a 34.3 average had 30 as the Falcons beat Kent State 82-68. Runner-up Manny Newsome of Western Michigan hit 45 in an 81-67 victory over Toledo.

Nick Werkman, the leading scorer a year ago, contributed 37 as Seton Hall whipped LaSalle 75-68. The total increased Werkman's per game average to 32.2, third best among the majors.

Tenth-ranked DePaul narrowly escaped from upset-minded Marquette with a 72-69 victory. Jesse Nash scored 29 including the last eight points as the Demons pulled it out.

It was DePaul's 15th victory in 17 starts and Marquette's eighth straight setback in a 4-14 season.

The only other ranked team in action was Villanova and the Wildcats got a boost from Wally Jones to whip Duquesne 73-63. Jones, hurt last Saturday's upset loss to LaSalle, scored 22 as eighth-ranked Villanova ran its record to 18-2.

Either Lucas Or Johnson Could Win Rookie Honors

By The Associated Press
Jerry Lucas and Gus Johnson most likely will shoot it out to the end of the season for rookie honors in the National Basketball Association.

The two first-year men remain statistically close together after big games Wednesday night.

Lucas scored 27 points and grabbed 20 rebounds in Cincinnati's easy 147-121 triumph over Detroit while Johnson poured in 30 points and snared 26 rebounds as Baltimore downed Philadelphia for the fourth straight time 121-115.

Boston whipped Los Angeles 104-97 in overtime.

Lucas has a slight edge on Johnson in scoring and rebounding in 59 games for each. Lucas is averaging 17.9 points and 16.7 rebounds per game. Johnson stands at 17 points and 13.9 rebounds.

its 25th victory of the season, which equalled the number of games the team won all last season in Chicago.

The former Idaho star put the Bullets in the lead to stay 112-110 with a three-point play in the final three minutes. Before the game was over, Johnson scored two more field goals, got an assist and blocked a Philadelphia shot.

Lucas' 27 points and Oscar Robertson's 38 sparked the Royals to their eighth straight triumph. Lucas' rebounding beat everyone.

Boston scored six straight points at the start of the overtime and went on to outscore Los Angeles 12-5 in the extra period.

The Lakers had a chance to win the game in regulation time but John Havlicek of the Celtics stole the ball from Los Angeles' Elgin Baylor with six seconds left and the score tied 92-92. Havlicek took a shot with one second to go and missed.

First Step Taken Towards Sports Arena In Columbus

COLUMBUS, Ohio (AP) — A group of Columbus promoters has taken a first step toward the proposed construction of a 30,000-seat, bubble-top sports arena near downtown in the capital city.

It could be a step to eventual Columbus entry in the American Football League and perhaps big league professional basketball.

Columbus Gardens, Inc., filed incorporation papers Wednesday with Secretary of State Ted W. Brown.

One of the incorporators, Columbus attorney George T. Gar-eff, said at a news conference that the group hopes to start construction of the arena in March 1965. He estimated the project will cost \$3.7 million.

Later, Gar-eff told The Associated Press that he talked with AFL Commissioner Joe Foss in Washington recently when Gar-eff, as United Football League commissioner, testified before a congressional committee. He said Foss was enthusiastic about the all-weather feature of the proposed stadium and may be interested in possible Columbus membership in the league in ultimate AFL expansion.

Bradds Making Surge, But BG's Star Leads

NEW YORK (AP) — Nick Werkman of Seton Hall and Gary Bradds of Ohio State each are putting on a late season surge, but Howard (Butch) Komes still is the leading scorer in major college basketball.

The 6-foot-1 star of Bowling Green held his No. 1 spot for the fourth straight week with a 34.6 average according to the latest statistics released today by the National Collegiate Service Bureau.

Manny Newsome of Western Michigan is second with a 33.1 average followed by Werkman's 31.9 and Bradds' 31.8 for a fourth place tie with Princeton's Bill Bradley.

When he returned the dog had pushed all the car door lock buttons, locking himself safely inside.

We'll Be In Thick Of Race, Dark Says Of 1964 Giants

By ALVIN DARK
San Francisco Giants

SAN FRANCISCO (AP) — I realize it will take a lot of baseball to win the National League pennant, the contention being what it is, but I believe the Giants have the tools to do a job.

I think we have a better club than the one which finished third in 1963. I'm not predicting we'll be the next champions but I feel certain we'll be in the race all the way.

Specifically, I expect the Giants to have better pitching this year. The deal with the Braves whereby we acquired Bob Shaw and Bob Hendley broadens our pitching base.

Right now, I'm counting on Hendley to join up with Juan Marichal, Jack Sanford, Billy

O'Dell and Bob Bolin for our starting five.

Shaw figures to head the bullpen, consisting of Don Larsen, Jim Duffalo, and Ken MacKenzie, a left-hander whom we acquired from St. Louis.

I'm also hopeful that a couple of our youngsters, notably Ron Herbel and Bob Garibaldi, will find a place on the staff. The pair won 25 games between them at Tacoma last year.

The team batting power is something that has to please any manager. It begins with Willie Mays and he is Willie Mays all the time. Willie McCovey, still on the rise, has unlimited potential.

So, too, has Orlando Cepeda.

I know Cepeda is looking forward to his best season.

Additional power should come from both catchers, Tom Haller and Del Crandall; and perhaps Jim Ray Hart, who will be our regular third baseman.

Hart and Jesus Alou, our new right-fielder, are significant additions to the regular line-up. We have high hopes for both. They come well recommended as hitters. Hart hit .312 and Alou .324.

If Hart can do the job at third, it will be possible to use Jimmy Davenport at second. Jesus, youngest of the Alou brothers, just might take over where his brother, Felipe, left off. Felipe is now with Milwaukee.

Distance Events To Feature Show In NYAC Games

NEW YORK (AP) — A spectacular field for the two-mile, a blazing personal duel in the half-mile and a bit of nostalgia are likely to steal the show from the traditionally featured mile run tonight in the 96th New York A.C. Games at Madison Square Garden.

The nostalgia will be provided by Princeton's Bill Bonthron, Penn's Gene Venzke and Kansas' Glenn Cunningham, who finished in a near dead heat in the NYAC Baxter mile in 1934. They'll don running clothes and jog a lap in the 30th anniversary of their race.

Jesse Owens and Harrison Dillard, who collared eight Olympic gold medals between

them, also will take a turn around the Garden track.

The two-mile has a definite international flavor in this Olympic year, with entries from Canada, Australia, Ireland, Costa Rica and the U.S. Toronto's 20-year-old Bruce Kidd, who has never lost on the Garden track, could be hard-pressed to defend.

The half-mile features the rematch of Villanova's Noel Carroll and Toronto's Bill Crothers, each a potential record-breaker. Crothers beat Carroll by a yard in their only other meeting this winter, clicking off an American record 1:50 in New York's Millrose Games.

The rangy Carroll was closing fast, however, and vowed he would be under 1:50 before he made it stand up with a spectacular 1:48.7 anchor lap on Villanova's record-setting two-mile relay team in Boston.

Evansville Is First In Small Teams

By The Associated Press

Washington of St. Louis and Assumption of Worcester, Mass., used excellent showings against major opponents as a springboard for advancement in The Associated Press small-college basketball poll this week.

Each climbed two places, Washington to fifth and Assumption to sixth. Evansville, Ind., retained a slim first place margin over Grambling of Louisiana with Pan American, Tex., holding the No. 3 spot and Hofstra moving one notch to fourth.

Evansville collected five votes for first place and 72 points in the latest balloting by a regional panel of eight writers. The Aces turned back Butler, a major team, 83-73 and Southern Illinois 94-73 to lift their record to 16-2.

Grambling polled three first place votes and 68 points. The Tigers whipped Texas Southern 91-84 for their 20th victory against a lone defeat. Pan American dropped an 87-79 decision to Toledo, another major team, for an 18-4 mark. Hofstra recorded victories against Westchester, Pa., Queens College and Wilkes and is 17-3 for the season.

Washington of St. Louis was impressive in turning back Drake, the leader of the Missouri Valley Conference, 75-68 while Assumption gave Holy Cross a hard time before losing its first game of the year 75-67. The Greyhounds have won 12.

Kentucky Wesleyan tumbled three places to seventh after losing to Duquesne, another major team, 90-74. Wittenberg fell

two notches to eighth despite victories over Marietta and Mount Union.

Youngstown held onto ninth place although it was set back by Gannon 78-63 following an 83-75 triumph over Lawrence Tech. Western Carolina remained 10th after beating Lehigh and Elon for an 18-4 record.

January To Defend At Tucson

TUCSON, Ariz. (AP)—Lanky Texan Don January opens defense of his Tucson Open golf title today on a desert layout where the weather could have as much influence as good driving and good putting.

The weather man expected it to be warm with little wind for the 72-hole event, but it wasn't that way for Wednesday's pro-amateur prelude to the \$30,000 tournament.

Gusts whipped the 49ers Country Club course, where the two lowest scores were a 67 by Jerry Edwards of Ft. Worth, Tex., and a 68 by Al Kelley of Orlando, Fla. Each teed off in the relative calm early morning and finished before the winds reached full velocity.

"Nobody could really enjoy golf in weather like that," Jacky Cupit declared when he finished his round with a 69. "That wind really was blowing."

Defending champion January came off the 18th green thoroughly wind-blown as he finished his round with a 71.

Wilhelm Inks Sox Contract

By MIKE RATHET Associated Press Sports Writer

Hoyt Wilhelm chuckles when he thinks of baseball's scholarly rules committee, draped over a catcher's mitt, tape measures out, trying to legislate against his success.

Wilhelm, who signed with the Chicago White Sox Wednesday for his 13th season in the majors will be lobbying his knuckleball up to the plate and into a king-size catcher's mitt for the last time—although he expects to be pitching for at least two more years.

A 40-year-old right-hander with the most impressive relief pitching statistics in major league history, Wilhelm became the center of a major controversy this winter when the rules makers decided to ban the over-sized mitt developed to snare his fluttermail.

After announcing their decision, the rules makers relented—and decided the big mitt, 40-50 inches in circumference, could be used for the 1964 season but would be banned thereafter in favor of the standard 34-inch glove.

"I don't think it will affect me either way," said Wilhelm. "After all, I've only been throwing to the big mitt for about three years and I had some good years before it came along."

Wilhelm had a 5-8 record last season, but his 2.65 earned run average was more indicative of his work. He also became the winningest relief pitcher in history with 75 victories and the most overworked with a record 1,123 innings pitched.

Besides Wilhelm, the White Sox also signed another pitcher, rookie Tom Hoagland.

Shortstop Dick Howser and first baseman Fred Whitfield signed with Cleveland, outfielders Russ Snyder and Paul Blair with Baltimore, third baseman Ed Charles with Kansas City, pitcher Hank Fischer with Milwaukee and outfielder Rex Johnston with Pittsburgh.

Operator Of Rig Hurt Slightly In Hit-Skip

A tractor-trailer rig operated by a Loudonville man was damaged and he received a forehead injury in a hit-skip collision on Route 45 about three miles northwest of Wellsville Wednesday afternoon.

The Ohio Highway Patrol at Lisbon said Ralph G. Taylor, 27, of Loudonville was headed southeast and rounding a curve when an oncoming truck tractor sideswiped his trailer and a failed to stop.

Taylor's rig jack-knifed, causing damage to the right side of the cab. The collision damaged the left side of the trailer, and he received a laceration and bruise of the forehead. Taylor said the other tractor was yellow. The crash occurred at 1:30 p. m.

Local Loan Co., Fullerton, Calif., vs. Ernest T. and Betty McCarty, Wellsville; action for \$706.77 claimed due on loan.

People In News

BRIGHTON, England (AP)—Albert Watts has the problem of what to do with 170 white mice. Watts is an inspector for the Royal Society for Prevention of Cruelty to Animals.

A lady was evicted from her apartment and fined five pounds (\$14) for allegedly causing suffering to 192 of them. Twenty-two were destroyed on court order.

Watts, saying "I like white mice in small numbers but this is too much," added: "I shall pass the problem on to my head office, otherwise it looks as though I may be lumbered (cluttered up) with them for the rest of their lives."

He noted with a sigh that white mice usually live 5 to 7 years.

BOISE, Idaho (AP) — John Bell, 14, in a coma since falling from a cliff nearly a year ago, was roused briefly by the playing of a cornet.

John, a former trumpet student, is at the Elks Rehabilitation Center in Boise, Idaho.

Leonard B. Smith of Detroit, nationally known cornetist in town to play with the Shrine band, went to Bell's bedside.

"If you like what I'm going to play, blink your eyes when I finish," Smith reportedly told the youngster. As the music ended, Bell blinked his eyes and also fingered a couple of notes in the air as though playing the trumpet.

Officials said it was his first real response since the accident last March 13.

LONDON (AP)—Dr. William B. Harvey, expelled from Ghana for alleged subversive activities, is in London for treatment of hepatitis, a liver ailment.

The University of Michigan professor was taken to the tropical disease hospital. The hospital would not comment on his condition.

HOLLYWOOD (AP) — Comedian Red Skelton and the Columbia Broadcasting System appear to have reconciled.

Skelton complained in Hollywood that his weekly show was being aired too early in the evening. After a brief sit-down strike at his home in Palm Springs, he returned to work Wednesday at CBS.

Neither Skelton nor the network offered any formal statement. But it was reported that CBS would give Skelton's show a more favorable time slot next season.

Lawyer Indicted In Bankruptcy Irregularities

CLEVELAND (AP) — Morris R. Blane, a lawyer who specialized in bankruptcy practices for 15 years, has been indicted by a federal grand jury which had been investigating U. S. Bankruptcy Court proceedings.

The 53-year-old Shaker Heights attorney was named Wednesday in five counts stemming from the bankruptcy in 1961 of Sterling Jewelry & Appliance Co. Blane was attorney for the firm, which had done business in Cleveland and Akron.

The indictment is the outgrowth of a probe of alleged irregularities in U. S. Bankruptcy Court that began more than a year ago.

U. S. Atty. Merle M. McCurdy, who directed the investigation, said he expects more indictments by the grand jury when it meets again. No date was set.

Conviction on all five counts could lead to a prison sentence for Blane of up to 25 years and fines totaling \$35,000.

Leftovers Make Quarter-Hour Casserole

This hearty, satisfying casserole is aptly named — 15 to 20 minutes are just about all you'll need to prepare and serve it.

Moreover, its full-bodied goodness will conceal the fact that, in addition to conserving time, it saves money because it is prepared largely from leftovers.

So, if the family budget still

suffers from the effects of holiday indulgence, you'll really appreciate this recipe.

Quarter-Hour Casserole

1 package brown gravy mix
1 cup water
1 can (1 lb.) mixed vegetables, or 2 cups, left-over vegetables
2 cups cubed, cooked beef
1 jar or can (1 lb.) boiled onions

1 can (1 oz.) potato sticks
Add gravy mix to water and bring to a boil, stirring constantly.

Add mixed vegetables, meat and boiled onions and simmer for 10 minutes. Pour into a two-quart casserole. Sprinkle potato sticks over the top. Place under broiler for a few minutes to heat potato sticks, but watch closely. Serves 6.

How To Reduce-Family Style

When overweight "runs in the family," daily meals and serving portions need changing. The family pictured in today's column is just

wonderful... the kind that can accept a right good challenge and make a game of doffing the duff.

The mother writes: "I am 5' 4" and weigh 205 pounds. My whole family needs to go on a good diet, and this is just what we intend to do. My 15-year-old daughter weighs 146 pounds; the 12-year-old girl weighs 126 solid pounds."

THE 10-YEAR-OLD boy is gaining like mad and weighs 104. One teen-age son is not overweight, but he has pimples, so I know that less rich food would help him too. We are all healthy and all hearty eaters. How many calories do we need? Should I eliminate sweets? I need advice on protective meals that are not fancy or expensive," she concludes.

First: Call a family council meeting. Have each member weigh in — and on a separate page in a notebook record weights and the weekly weight loss. It would be interesting to have the 10-year-old chart a graph on each reducer. On graph paper, let each square down represent one pound each square across represent one week.

At the start of the diet, you will lose at the rate of 2 pounds a week. The children should not lose more than one pound each week, or even an average of 3 pounds a month.

It would be an excellent plan for you to check in with your family doctor, and let him keep a record of all weight.

Traffic Case Slated Friday

Acting Municipal Judge Robert A. Kapp today granted a continuance until Friday at 9 a. m. in the case of Terry Fullerton of Valley Dr., Calcutta, accused of forcing another auto into a parked car early Friday in Klondyke.

The affidavit was signed by Joseph S. Lidak of Industry R. D. 1, charging Fullerton with reckless driving. The affidavit alleges that Fullerton drove his auto alongside another car owned by Lidak and "forced and crowded it off the street into a parked car" on Harvey Ave.

Lidak did not appear for the scheduled hearing this morning. He phoned the police department and reported he was unable to make the trip because of bad road conditions. Police said he was instructed to appear at 9 a. m. tomorrow.

Fullerton entered a not guilty plea through his counsel, Atty. Donald E. Smith. The counsel then moved for dismissal of the charge for lack of prosecution. The acting judge declined, but indicated he may dismiss the affidavit if the complaining witness does not appear tomorrow. Fullerton was released on his own recognizance.

At the time of the mishap, Lidak told police his car was being operated by Dave Varnovich of Midland. He said Varnovich was attempting to elude Fullerton. Lidak's car struck a parked auto owned by Donna Jean Barrett, 1918 Harvey Ave., according to the police report.

Junior Editors Quiz on
HISTORY

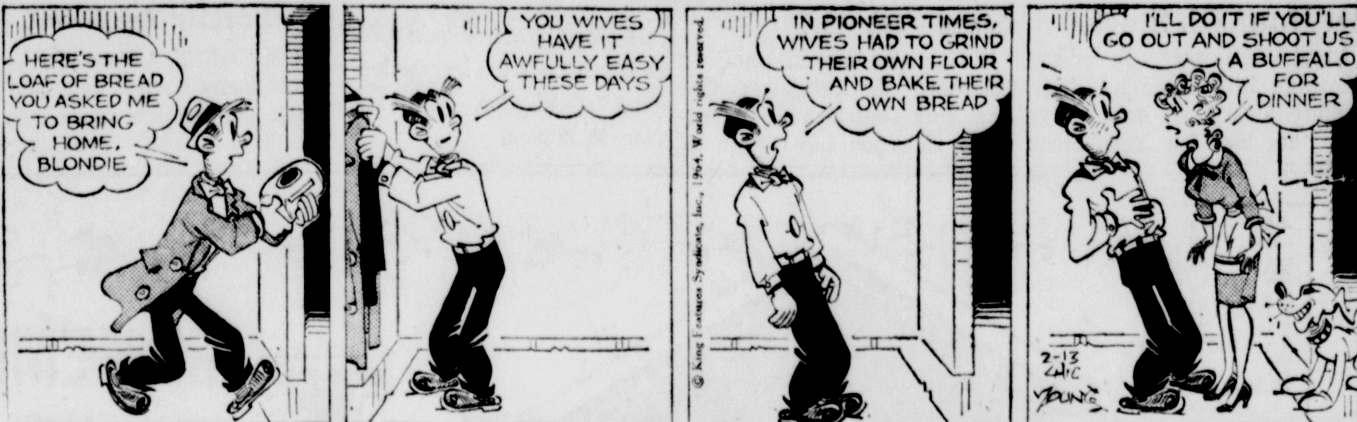

QUESTION: When did civilization begin?

ANSWER: The word "civilization" comes from the Latin "civis" which means "citizen of a city." Students of history say civilization began when the first cities developed. Of course, many highly important discoveries such as the use of metals, the raising of crops for food, and the domestication of animals, were made before the age of cities. But when certain areas were found where enough crops could be raised for men to have a supply all year around, it became possible to put up permanent buildings, and these centers brought what we call civilization into being. Five great river valleys led to civilization: the Nile in Egypt, the Tigris and Euphrates in the Middle East, the Indus in India and the Hwang Ho in China. Egyptian cities started about 3000 B.C.; at about the same time, Sumerian civilization started between the Tigris and Euphrates. The Indus Valley civilization began about 2700 B.C.; that of the Hwang Ho in 1500 B.C. In such cities, writing became a necessity, which led rapidly to improvement in other fields. The Egyptian chair in upper left is an example of the marvelous craftsmanship developed in these early city civilizations.

FOR YOU TO DO: On your next visit to a city or large town, notice the part cities take in bringing people and ideas together. Jerry has found something new in a city window — it may boost his scientific interest and affect the course of his life.

Deborah Bergeron, of Orange, Mass., wins today's grand prize of a 20-volume set of the World Book Encyclopedia for this question. Mail yours on a postcard to Junior Editors in care of The Review and you too may win a set.
